

*Mary Maher Home Economics Teacher in St. Anne's  
Providing On-line resources for families  
Useful videos posted by Mary Maher*

Mary is busy putting together videos for her students that reflect all the hard work they do during home economics class. The videos demonstrate skills already learned and which we ask families to continue to practice at home.

Her videos demonstrate the skills that are taught in school and which can easily be transferred to home and used for all children.

Please check them out on the following links:
